一、 Cutting Wheel

1: straight cutting wheel

**Item No.** straight cut-off wheel

**Detail description:** Cutting of sprues, stainless steel sheet, full-materials, tubes and profiles.

**Used for material:** Tool steels, high-alloy stainless steels, heat-treated steels, grey cast iron, malleable cast iron, cast steel, ductile graphite iron, manganese cast iron.

**Products Series**

### Flap disc

1. Aluminium oxide flap disc for metal steel

**Item No.** Aluminium oxide flap disc

**Detail description:** Cleaning of welding seams, deburring, chamfer, de-rust, preparatory works for lacquer of car bodies, machines, switchboards, tank constructions, GFK, sanding of wooden surfaces such as parquet of furniture.

**Used for material:** Metal steels, mild steels, tool steels, spring steels, cast iron, non-ferrous metals, plastic, primer, lacquers and wood......

2. Flap disc made by calcination gauze for metal steel and stainless steel

**web sit:** [http://www.juma-abrasives.com](http://www.juma-abrasives.com)  
**Email:** sale@juma-abrasives.com
Calcination flap disc

**Detail description:** Cleaning of welding seams, deburring, chamfer, de-rust, preparatory works for lacquer of car bodies, machines, switchboards, tank constructions, GFK, sanding of wooden surfaces such as parquet of furniture.

This kind of product has the better durable performance and sharp performance than that of aluminium oxide flap disc. It is not only have the same application as aluminium oxide flap disc, but also can be used for stainless steel.

**Used for material:**
Stainless steel, metal steels, mild steels, tool steels, spring steels, cast iron, non-ferrous metals, plastic, primer, lacquers and wood...

### (3) Zirconium flap disc

**Item No:** Zirconium flap disc

**Detail description:** Cleaning of welding seams, deburring, chamfer, de-rust, preparatory works for lacquer of car bodies, machines, switchboards, tank constructions, GFK, sanding of wooden surfaces such as parquet of furniture.

This kind of product has the best durable performance and sharp performance among the three kinds flap disc. It is mainly used for stainless steel.

**Used for material:**
Stainless steel, metal steels, mild steels, tool steels, spring steels, cast iron, non-ferrous metals, plastic, primer, lacquers and wood...

**Flap disc used on machine (as follows)**
